

# ARTEMIS

441-28-PN

A series of side-by-side, up-and-down triangles form the chevron-like pattern of these opal matte glass shades. The shades are open at the bottom to let light flow freely while the glass itself cast a soft glow with a unique angular design. A cube-shaped accent at the center of the chandelier and arm of the sconce adds to the design's overall geometric feel.
